 Mawanella

Final-year BSc (Hons) Computer Science undergraduate at NSBM Green University following the University of Plymouth degree program. Experienced in designing and developing full-stack web applications using React, Node.js, Express.js, MongoDB, and modern software engineering practices. Passionate about building scalable, user-focused solutions and seeking Software Engineer Internship opportunities.

TECHNICAL SKILLS

Languages:	JavaScript, TypeScript, Java, PHP
Frontend:	React.js, Tailwind CSS, HTML5, CSS3, Vite
Backend:	Node.js, Express.js, REST APIs, Socket.IO
Databases:	MongoDB, MySQL
Tools:	Git, GitHub, Postman, Microsoft Azure
Currently Learning:	Laravel, RESTful API Development, Authentication & Authorization

EXPERIENCE

Software Engineering Project Experience	2023 - Present
BSc (Hons) Computer Science	
- Collaborated in Agile teams to design and develop full-stack web applications. - Participated in requirements gathering, system analysis, UI/UX design, implementation, testing, and project presentations. - Developed scalable web solutions using React, Node.js, Express.js, MongoDB, and modern development practices. - Utilized Git and GitHub for version control and collaborative development.	

HIGHLIGHTS

- Built AgroBridge, a full-stack agricultural marketplace using React, Node.js, Express.js, MongoDB, and Socket.IO.
- Developed modern web applications focusing on real-time communication, responsive UI design, and scalable backend architecture.
- Seeking Software Engineer Internship opportunities to further develop expertise in full-stack development and cloud technologies.

PROJECTS

AGROBRIDGE | Smart Paddy Stock & Supply Management System

Jan 2026 – May 2026

 [GitHub: github.com/Eranda342/Smart-Paddy-Stock-Supply-Management-System](https://github.com/Eranda342/Smart-Paddy-Stock-Supply-Management-System)*Tech Stack: MERN Stack (MongoDB, Express, React, Node.js)*

- Developed a full-stack agricultural marketplace connecting farmers and suppliers using the MERN stack.
- Implemented real-time inventory updates using Socket.IO and responsive dashboards for stock monitoring.
- Built robust REST APIs and applied software engineering principles to solve agricultural supply chain problems.

Portfolio Website | Personal Developer Portfolio

2026

 [GitHub: github.com/Eranda342/eranda-portfolio](https://github.com/Eranda342/eranda-portfolio)*Tech Stack: React, Vite, Tailwind CSS*

- Built a fast, modern portfolio to showcase university projects and personal work.
- Implemented interactive UI components and responsive design.
- Ensured high performance and accessibility.

EDUCATION**BSc (Hons) Computer Science**

2023 - 2026

NSBM Green University | Degree Awarded by University of Plymouth (UK)

Expected Graduation: 2026

Kg/ Mw/ Mayurapada National School

2020 - 2022

School

RELEVANT COURSEWORK

Software Engineering • Data Structures & Algorithms • Database Systems • Human Computer Interaction • Web Application Development • Cloud Computing

LANGUAGES

English (Fluent) | Sinhala (Native)

INTERESTS

Full-Stack Development | Software Engineering | UI/UX Design | Problem Solving | Open Source Contribution
